Hello!

I'm the planner for the owner of 15 Highview, which as you likely know has a committee of adjustment application pending.

If it would be of benefit, I'm happy to speak with the Regal Heights RA anytime (including tonight at the meeting, or subsequent meeting) in case there are any questions.

A few things I'd like to note, that might be of interest to the members:

- 1) We are going to have a public information meeting over zoom in May.
- 2) We are going to be handing out a notice in the mailboxes of neighbours with info about the project and my contact info, should anyone have questions or they want to register for the zoom.
- 3) The big nice tree on the property will be saved... there is no plan or desire to remove it (it is also

Let me know if my making an appearance tonight would be of benefit, or please feel free to convey the above info (and my contact info) to interested people.

All the best,
Sean
