

*Marjorie Cormier* on May 2, 2021 Edit

Starlight has shown no respect for the community. I live across the street from 2 Regal Rd and during the balcony replacement they often drilled and jackhammered on Sunday. Including a statutory holiday, boxing day. (2020) My neighbor just had a baby and my husband works 6 days a week and would like to enjoy 1 day without very loud and disturbing noise pollution. The building now looks like it is built from cinder block. They covered beautiful brown and red brick with a cinderblock color. The building is high enough. We live on a residential street and many of our neighbors have lived there for over 25 years under rent control...very rare affordable rents. I do not feel it is wise to allow additional heights on residential streets and this may become a precedence.. I will photocopy and distribute the info in May and also talk to the renters, many who are essential workers and have lived in our neighborhood for a very long time. Thank you so much for informing us. My poor neighbors have to endure shelter insecurity during a pandemic .
